Sensient Achieves Certification of BRC Global Standard for Food Safety

With the renewal of this level A certification Sensient Fragrances S.A. demonstrate once again the standardisation of quality, safety and operational criteria, and ensures that as a manufacturer they fulfil their legal obligations and provide protection for the end consumer.

Armilla (Granada), Spain, December 2015 – Sensient Fragrances S.A. has successfully completed the audit to maintain the BRC certification with its upgraded version 7.

The British Retail Consortium (BRC) is a Global Food Safety Initiative (GFSI) benchmarked food safety standard covering food safety and management of product quality in food packing and processing operations.

Certification to GFSI benchmarked standards such as BRC increases brand protection and minimizes risk. Achieving certification to the BRC Global Standard for Food Safety provides independent certification that a product or process complies with specific international standards. It enables a food supplier to give assurances that food has been produced, prepared and handled according to the most recognized standards.

The natural oils and synthetic aroma Anethole that are manufactured in the Sensient Fragrances facilities under the most stringent quality & safety conditions, have been recognized with the **grade A certification** according to the Global Standards for Food Safety of the British Retail Consortium (BRC).

With this recognition we ensure our customers the highest quality essential oils and aroma

chemicals.

BRC Global Standards is a leading safety and quality certification programme, used by over 23,000 certificated suppliers in 123 countries, with certification issued through a worldwide network of accredited certification bodies.

The standard helps promote consistency across the supply chain for food and ingredient manufacturers, wholesalers and distributors.

Marino Papazoglou, General Manager of Sensient Fragrances S.A. says: “ the achievement of this certification demonstrates a commitment to quality processes and continuous improvement, and enables access to top retailers.
